ABOUT ME

I am a one year junior web developer with a passion in making front-end UI/UX design using different libraries such as React.js, Tailwindcss, Bootstrap, MUI, Three.js. Currently I'm learning about back-end development including Node.js, Express.js, Firebase and also doing freelance work. I want to continue learning and growing my technical skill not only in front-end, but also back-end development with node.js, database management and web hosting.

EDUCATION HISTORY

2016-2019
Bachelor of Information Technology
Queensland University Of Technology
- Basic and advanced methods of web development
- Mostly played developer role in teamwork.

2020 - 2021
Professional Year at Navitas
- 3-month Internship at Centra Networks.
- Developed Professional Communication skills
- Developed the "Work hard - Play hard" approach to life and work.

WORK EXPERIENCE

3/2023 - 4/2023
Freelance Web developer, Le Bakery & Patisserie
-Design and Create https://lebakery.com.au/ website using Wordpress, custom CSS and Javascript.
-Set up Domain and hosting.
-Set up online menu order for customer, with payment through stripe.
